## THE BEST OF BOTH WORLDS

The new SlimBook 230 series is the next generation of our successful slimbook line. The innovative model of the SlimBook 230 series are designed to enhance productivity for mobile professionals by offering a computing solution that functions in the field as well as on the desk.

The Slimbook 230 series combines the power of Intel Atom Technology with the Microsoft Windows Vista Ultimate operating system in a sleek lightweight form factor that can be carried about as easily as a pad of paper, but features the full functionality of a top-of-the-line PC. It represents the fastest Slate Tablet PC on the market today.

The SlimBook 230 series offers a 12.1" LCD touchscreen which can be operated by touching, or by using the included stylus. Additional features include a maximum of four user-programmable buttons, bluetooth and wi-fi connectivity, a cradle connector for many expansion possibilities and harddrives that start at 80GB.
